ABOUT ME

I am a first-year B.Tech CSE student passionate about web development, UI/UX design, and problem-solving. Currently learning at Coding Gita, I have been actively building projects using modern web technologies while also designing intuitive and user-friendly interfaces in Figma. My goal is to bridge the gap between design and development by creating efficient, visually appealing, and user-centric digital experiences. I thrive on learning new technologies, collaborating on innovative projects, and continuously improving my skills to stay ahead in the tech industry.

EDUCATION

2021 - 2022
Navjivan vidhyamandir

10TH
Navjivan Vidhyamandir, Unjha – 10th Grade, 92%
Excelled in academics with a strong foundation in core subjects.

2023 - 2024
Shree ram vidhyalaya

12TH
Shree Ram Vidhyalaya, Planpur – 12th Grade, 63%
Developed a solid understanding of key subjects with a focus on academic growth.

2024-2028
Rai university

B tech
Rai University – B.Tech, 1st Year | CGPA: 9.62 (1st Semester)
 Building strong technical and problem-solving skills in Computer Science.

PROJECTS

1. Task Turf – Worker Management Platform
                A web application that connects users with workers for household services like cleaning, plumbing, and electrical repairs. It enables users to browse worker profiles, book services, and make secure payments, while workers can manage tasks and availability.
Tech Stack: React, Tailwind CSS, Node.js, Express.js, MongoDB, 0Auth , mongoose , react libraries (lucide react , react-icons)

2. Figma Design
                Designed and prototyped multiple UI/UX projects, focusing on user-friendly interfaces and interactive experiences. Projects include Task Turf (worker management platform), a snow remover app, Flipkart & Amazon clones, a Ludo game, and a basic chat system. Emphasized responsive design, component reusability, and seamless user interactions. Additionally, collaborated on a Figma tutorial to refine and enhance design skills.
